The Snail Lock System is a simple, efficient and fast method to swap polishing pad grits using an angle grinder.
OVERVIEW

The Snail Lock installs onto an angle grinder so as to easily accept each Snail Lock Backer Pad.

The Backer Pads are available in 4, 5 and 7 inch sizes.

The Snail Lock Backer Pad twists a 1/4 turn and locks onto the Snail Lock for a solid hold.

Purchase one Snail Lock to fit your angle grinder along with several Snail Lock Backer Pads for each of your Polishing Pad grits.

RESOLVING COMMON ISSUES

Increase the life of your Polishing Pads and Backer Pads by avoiding the following issues:

- **Polishing Pad and Backer Pad velcro lose their effectiveness due to dust and dirt.**
  - Dedicated Snail Lock Backer Pad always keeps velcro new and intact.

- **Constantly removing the Polishing Pad, can cause cracks.**
  - Each Polishing Pad has a dedicated Backer Pad.

- **Polishing Pad potentially misaligned causing damage to the pad.**
  - Polishing Pad always aligned.

- **Is this your toolbox?**
  - Polishing Pad and Backer Pad velcro is always protected and organized.
